

JOIN OUR “WAR VICTIM AID CHALLENGE” THIS HOLIDAY SEASON!

Posted on December 21, 2022

While those of us who live in peaceful countries quietly dream of a crispy, white Christmas, that dream may well be more of a nightmare for war-ridden Ukrainians. Take our challenge and join us in making a difference for those who struggle!

With the loss of electrical power for lights or heating, a cold and dark winter threatens to take civilian lives in urban Ukrainian areas. At Visitech, we find it hard to stand by and watch the struggle our neighbours are experiencing. So – we decided to make a humble attempt at supporting those who

know how to help, hands-on, where help is needed the most.

Coincidences

For Visitech, the opportunity to help presented itself by coincidence and unexpectedly while our team were enjoying an early company Christmas dinner in Frankfurt. Most of our team was in town for the Formnext exhibition, making it a convenient occasion for our global offices to spend an evening together.

Vadym Kostiuk er her: **Restaurant Maaschanz** sammen med **Linn Githmark** og **7 andre**.

6. desember kl. 18:01 · Frankfurt, Tyskland · 🌐

What can Ukraine, Norway and France bring together in Germany?)

From the owner of the French restaurant Maaschanz in Frankfurt am Main, Mr. Bruno Lauffenburg, my wife Olesia Kostiuk received the suggestion to organize a charity exhibition of her paintings in his premises.

One day Mr Bruno called my Olesia and said that a Norwegian IT company is showing great interest in acquiring many pictures!

This IT company is VISITECH AS (<https://visitech.no>) which donated for the images and prints for Ukraine. This donation was enough to buy many power generators, which will supply light and warmth to our fellow citizens in the suburbs of Kyiw (Hnidyn).

Thank you to all supporters of Ukraine!!!

Oh yes, the pictures and prints are still available!)

Charity exhibition

At Maaschanz, the French restaurant of our choice in Frankfurt, artist Olesia Kostiuk had agreed with owner Bruno Lauffenburger to use the restaurant premises for a charity exhibition of her paintings. Intrigued by the art, our dining team approached Mr Bruno to inquire further. Before the evening concluded, the restaurant owner had phoned artist Kostiuk, who agreed to sell the entire art lot to Visitech!

Immediate help

Directly involved in Ukrainian war victim aid and especially with supplying power generators to apartment buildings suffering from blackouts in suburban Kyiv, the artist and her husband Vasym put the art sale proceeds to life-saving services immediately. Multiple generators were shipped to the Hnidyń suburb within days.

Challenge: Make a difference!

At Visitech we became fortunate owners of beautiful art in the process – and are grateful that the coincidences led us to experience the selfless efforts of Europeans such as Olesia Kostiuk, her husband Vasym, and restaurant owner Mr Bruno. A warm, helping hand from another country may make a world of difference for the suffering families and individuals of Ukraine this winter. We'd like to extend this helping hand further and challenge our valued customers and associates to make generous donations as well.

– We can help you help

Not sure who to contact? If you, like us, agree that urgent power generators for Ukraine are an effort worth supporting, contact our team. We will connect you directly with a proven charity aid that works!
